APPLICATION FOR TITLE V MODIFICATION

- Instructions -

Page 1 of 4

I. PERMIT ACTION

On the application form, mark the box to indicate what type of Title V modification this is. Definitions follow in these instructions. Only one application form is needed for each facility.

Line 1. Enter the name of the facility.

Line 2. Enter the AVAQMD Facility ID number

Line 3. Enter the current Title V permit number

Line 4. Indicate the organizational structure of the facility

Line 5. Enter the name of the facility owner

Line 6. List the mailing address where correspondence regarding the application and the Permit to Operate may be sent. Please include your nine-digit zip code.

Line 7. Enter the facility mailing address. Indicate the installation date of any equipment changes from this modification.

Line 8. Indicate the distance of equipment, including feet and direction), from the closest fenceline, residence, business, and school.

Line 9. Indicate the general nature of the business performed by the facility.

Line 10. Describe each emissions unit. You may reference existing valid District Permits to Operate for each permitted emissions unit.

Line 11. Provide the name, title, phone number, and email address of a person to contact for further information on this application.

II. Compliance Certification

A compliance certification is a certification by the Responsible Official that each of the statements initialed in this section are true, accurate, and complete. The Responsible Official must check each box for which the statements are true, sign and date, and print his/her name and title.

For a corporation, the responsible official shall be a president, secretary, treasurer, or vice president in charge of a principal business function, or any other person who performs similar policy or decision-making functions for the corporation. The responsible official may be a duly authorized representative rather than any of the above if the representative is responsible for the overall operation of one or more manufacturing, production, or operating facilities applying for or subject to a permit; and

1. the facilities employ more than 250 persons or have gross annual sales or expenditures exceeding \$25 million in 1980 dollars; or
2. the District has approved a petition from the original responsible person to delegate authority.

APPLICATION FOR TITLE V MODIFICATION

- Instructions -

Page 2 of 4

For a public agency the responsible official shall be either the principal executive officer or the ranking elected official. The principal executive officer, in the case of a federal agency, may be the executive officer having responsibility for a geographical unit.

For a partnership or sole proprietorship, the responsible official is a general partner or the proprietor, respectively.

OTHER REQUIRED INFORMATION

If needed to complete the processing of your Title V permit application, the District may request additional information.

Administrative Permit Amendment

An administrative amendment is a modification to a FOP that is being made solely for the purpose of accomplishing one or more of the following objectives:

1. Corrects typographical errors.
2. Makes an administrative change at the source such as the name, address, or phone number of a person named in the Part 70 permit.
3. Requires more frequent monitoring or reporting by the permittee.
4. Allows for the transfer of ownership or operational control of a stationary source provided that a written agreement containing a specific date for transfer of Part 70 permit responsibility, coverage and liability between the current and new permittee has been submitted to the District.

Minor Permit Modification

A minor permit modification is a revision to a FOP which is not an Administrative Permit Amendment and which meets all of the following criteria:

1. The proposed modification does not violate or cause a violation of any Applicable Requirement; and
2. The proposed modification does not relax any monitoring requirements or relax any reporting or record keeping requirements; and
3. The proposed modification does not require or change a federally mandated case-by-case determination of an emission limitation or other standard, a Facility specific determination of ambient impacts for temporary Facilities, or a visibility or increment analysis or require or change a case-by-case determination of an emissions limitation or other standard required or imposed pursuant to District Regulation XIII – New Source Review; and
4. The proposed modification does not impose or change a permit condition which allows the Facility, or any Permit Unit at the Facility, to operate below the threshold of applicability for any Applicable Requirement or of this regulation; and
5. The proposed modification is not a modification under Title I of the Federal Clean Air Act.

Significant Permit Modification/Title I Modification

A significant permit modification is a revision or proposed revision to a FOP which does not meet the qualifications for an Administrative Permit Amendment or a Minor Permit Modification. All Title I Modifications must be treated as Significant Permit Modification. A Title I modification is a modification to a FOP that meets any of the following criteria:

APPLICATION FOR TITLE V MODIFICATION

- Instructions -

Page 4 of 4

1. A modification under Section 111 (New Source Performance Standards (NSPS)), i.e. when a modification of an existing unit at a Title V facility is considered a modification as defined in 40 CFR Part 60.14. (This does not include new units subject to NSPS.)
2. A modification under Section 112 (Hazardous Air Pollutants (HAPS)), i.e. when either a new project or a modification of an existing emissions unit at a Title V facility would increase the potential to emit for HAPs and would constitute either the construction or reconstruction of a major source of HAPs as defined in 40 CFR part 63.41. This type of modification also occurs when a modification to an existing emissions unit occurs that would not be considered a reconstruction of a major source of HAPs, but would still increase HAP emissions beyond the HAP major levels such that federal promulgated MACT requirements for the emissions unit category would become applicable.
3. A major modification under Part C of Title I (PSD), i.e. when a new project or modification of an existing emissions unit at a Title V facility will require a PSD permit. This is a major modification under Part C of Title I of the Clean Air Act.
4. A major modification under Part D of Title I (Nonattainment Areas), i.e. when the potential to emit from all new, modified, replacement, or relocated emission units at the stationary source, which are covered by the application for such Part 70 permit modification, plus all other emission increases that occurred during the specified evaluation period are equal to or greater than 25 tons/year for ROC or 25 tons/year for NOx.

The evaluation period is a period of five consecutive calendar years consisting of the calendar year in which the application for such Part 70 permit modification is submitted to the District and the four calendar years immediately prior to the calendar year in which the application for such Part 70 permit modification is submitted to the District.
