

## NOTICE of TITLE V PERMIT MODIFICATION

NOTICE IS HEREBY GIVEN THAT *Lockheed Martin Aeronautics Company (Lockheed Martin)* located at 1011 Lockheed Way in Palmdale, CA 93599 has submitted an application for A significant modification of their Federal Operating Permit (097001754) pursuant to the provisions of the Antelope Valley Air Quality Management District (AVAQMD) Regulation XXX. The facility is designed to assemble, maintain, and modify military aircraft. The applicant is required to make this change to their FOP because the facility will be increasing emissions of certain pollutants in the ozone non-attainment area of the AVAQMD where the facility is located. This increase is attributable to the installation and operation of two new boilers, serving as replacements for existing boilers. Changes included in this modification that will not result in increase in emissions are; the addition of existing exempt ovens to the coating line, and removing a 200 hour annual limit for emergency internal combustion engines.

REQUEST FOR COMMENTS: Interested persons are invited to submit written comments and/or other documents regarding the terms and conditions of the proposed renewal of *Lockheed Martin's* Federal Operating Permit. If you submit written comments, you may also request a public hearing on the proposed renewal of the Federal Operating Permit. To be considered, comments, documents and requests for public hearing must be submitted no later than 5:00 P.M. on November 30, 2018, to the AVAQMD, at the address listed below.

PETITION FOR REVIEW: Federal Operating Permits are also subject to review and approval by USEPA. If USEPA has not objected to a proposed permit, and the AVAQMD has not addressed a public comment in a satisfactory manner, the public may petition USEPA, Region IX, Operation Permits Section at 75 Hawthorne Street, San Francisco, CA 94105 within 60 days after the end of the USEPA review period for USEPA to reconsider its decision not to object to the permit.

AVAILABILITY OF DOCUMENTS: The proposed Federal Operating Permit, as well as the application and other supporting documentation are available for review at the AVAQMD offices, 43301 Division Street, Lancaster, CA 93535. Please contact Vickie Rausch, Air Quality Engineer at the address, above, or (661) 723-8070, extension 24, or at [vrausch@avaqmd.ca.gov](mailto:vrausch@avaqmd.ca.gov) for additional questions pertaining to this action and/or corresponding documents.

DEANNA HERNANDEZ  
Clerk of the Governing Board  
Antelope Valley Air Quality Management District
