

10th Annual Lawn Mower Exchange Event “Mow Down Air Pollution”

Antelope Valley residents can receive Special Pricing of up to 70% savings toward the cost of purchasing new, battery electric, zero emissions lawn equipment!

Two events will be held this year:

Saturday, June 2nd from 9:00am to 12:00pm
Antelope Valley Environmental Collection Center
1200 West City Ranch Road, Palmdale

Saturday, June 23rd from 8:30am to 11:30am
City of Lancaster Maintenance Yard
615 West Avenue H, Lancaster

This Event is a drive-thru, drop-off **by appointment only**. Bring your working gasoline lawn equipment and trade for your pre-paid, new, battery electric lawn equipment.

Antelope Valley residents can register and set an appointment beginning Monday, April 30th 8:00am through Friday, June 22nd at 3:00pm. Pre-payment is required during registration to receive the *Special Pricing. Program funds are limited. First come, first served.

***Special Pricing:** (your choice of the following lawn equipment)

- EGO 20” Lawn Mower 56 Volt = \$150
- EGO 530cfm Leaf Blower 56 Volt = \$75
- EGO String Trimmer 56 Volt = \$75

**All pricing includes tax. Participant can exchange up to 3 units per household limited to available supplies. Payment due upon registration.*

Registration Instructions:

- 1) Visit the Greenstation website to view equipment offered for the 2016 event at www.thegreenstationproducts.com/avaqmd.html.
- 2) **Registration:** You can register Monday, April 30th – Friday, June 22nd by visiting the Greenstation website at www.thegreenstationproducts.com/avaqmd.html or by calling toll free (866) 646-4652. Please remember in order to claim Special Pricing, the participant’s payment is due at time of registration. A confirmation and appointment time will be provided upon registration.
- 3) **On Event day, the participant will complete and submit a Release of Ownership and Disclaimer. This form officially releases the old lawn equipment to the Lawn Mower Exchange Program and cannot be reclaimed.**
- 4) Arrive at your scheduled appointment date and time to drop off and pick up.

PLEASE NOTE: To follow traffic pattern into the facility where staff will unload your trade equipment and direct you to the loading station.

- 5) Gasoline equipment must have all operational parts and fluids to test operability.
